# WOOD DOLLY EQUIPMENT COMPARISON

## SNAP-LOC WOOD DOLLY SYSTEM

- ✓ **Customizable to any size!** Have Snap-Loc make your lengths of 2"x 6" solid wood or choose to make your own platform.
- ✓ **Choice of Casters!** Snap-Loc offers a perfect selection of ball bearing easy rolling Casters for all types of surface applications from 750 lbs. up to 1800 lbs.
- ✓ **Repurpose, Resize, Reuse!** Brackets, Casters, and Hardware can be disassembled and reassembled to create new Dolly sizes.
- ✓ **Versatile Accessories!** Add on optional E-Track Singles with logistic E-Straps to secure loads and use as cargo control handles. Interconnect multiple Dollies with Connector Straps and Link Kits. Rigid Caster Kits for directional steering and added capacity. Easy, Fast, Safe.

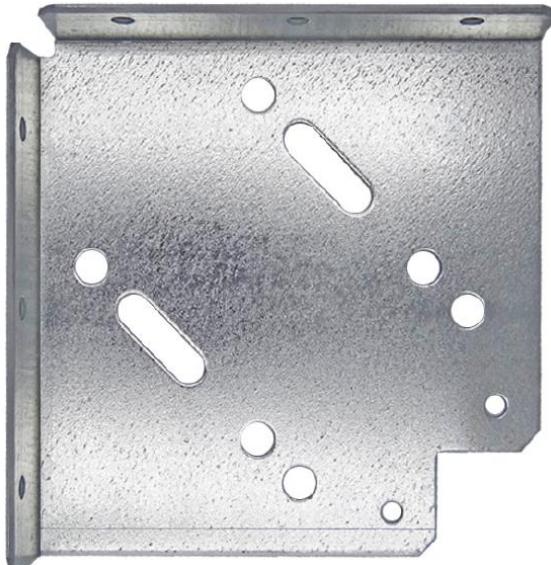

## STANDARD WOOD DOLLIES

- One size does not fit all. Unable to adapt to your unique project or cargo loads.
- Weight rating almost always misrepresented. Low-grade casters do not roll well and often break subjecting cargo to costly damage.
- Very limited or no accessories available to improve versatility.

## SPECIFICATIONS

USA made 12-gauge Galvanized Steel 6-1/2 x 6-1/2 x 1-1/4 inch.

Hole selections allow for caster position to be inward for tilting to load cargo or outward for additional stability.

Fits industry standard caster top plate 2-3/8 x 3-5/8 inch with bolt hole slots 1-3/4 x 2-7/8 inch on center. Also fits larger square caster plates with holes at 3 x 3 inch on center.

Plate Kit includes #10 1-1/4 Screws for fastening sides and #14 1-1/4 Lag Screws for fastening casters.

Wood is a Premium American Pine heavy duty stud cut to any size width and length from 14 inch to 96 inch.

## MADE IN USA
